Profile:

It has been my privilege and honor to serve the city of American Fork for the past 3 years. I have enjoyed meeting with many of you to listen and respond to your various concerns. I strive to never take lightly the responsibility to which you elected me. Together, we have accomplished a lot over the past three years. This fall, I ask for your vote to help us continue to make many more improvements as we make our city more efficient and a place we all value living. A small list of our accomplishments include:

- Increased transparency by making council packets, live-streaming and recording of council meetings, and city finances searchable and available online;
- Saved the city over \$600,000 a year in annual costs by improving efficiency;
- Supported public safety through increased drug enforcement, repairing broken fire hydrants, and improving pedestrian and vehicle issues throughout the city; and
- Spurred economic growth by helping existing businesses as well as new businesses in the city.

My passion has always been to give back to the community in which I have been so blessed to live. Please feel free to check out my website for more in-depth information. Thanks!

I have owned my home in American Fork for more than twenty years and am strongly familiar with the history of our high taxes, debts, and utility prices. I have experience and skills that would make me a good City Councilman. I have successfully budgeted for my family and for a business and reduced my debt to zero. I have attended countless city council meetings and know the city council's duties and the committees they take part in. Among the duties I volunteer for are our American Fork Library and as house manager for our American Fork Arts Council's Timpanogos Chorale. My energy, experience, skills, and exhibited commitment to helping American Fork be a good place to raise my family demonstrate that I would be a benefit to American Fork as a City Councilman.

Profile:

Hometown common sense.

My name is Kevin J. Barnes. Our family has lived in American Fork since 1979. My wife Donna and I have raised six children here and we now have sixteen grandchildren.

I am running for city council for the opportunity to serve the citizens of our great community. American Fork is a wonderful place to live and my goal is to help continue and add to the history and traditions that we enjoy.

The main concern that I hear as I visit with citizens is the condition of our roads. We need to keep their repair and maintenance a high budget priority. Additionally we need to continue to provide our basic city services such as police, fire, water, sewer, and others at appropriate levels. There is also a lot of concern about continuing the programs that add to our quality of life. All of this needs to be addressed while maintaining the lowest possible taxes and fees and making the best use of tax dollars. We also need to keep our debt as low as possible.

If elected, I promise to serve the citizens of American Fork and do what is best for the entire community.
